

# LINOIT APP

## Background Information

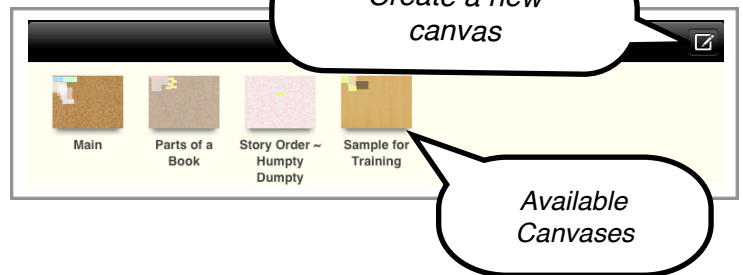

- Download the Linoit App: <http://en.linoit.com/> (or iTunes Linoit App)
- Open “Linoit”
- Log into the site with a username & password (if using with students you will want to create a “generic” account)

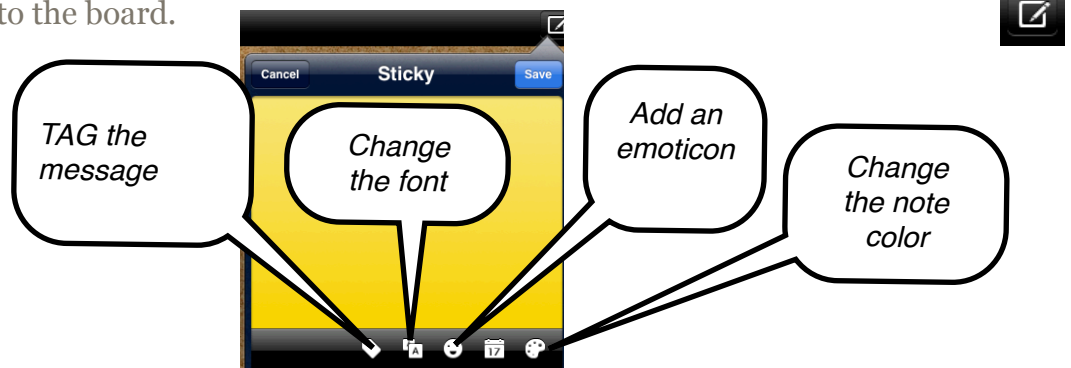

- Select a Canvas or press the “new content/canvas icon” in the upper right corner
- The app seems to work best if placed in the horizontal orientation. Switch orientation of your iPad if necessary.

- To create a new canvas, click the new content icon in the upper right corner

- Name the canvas
- Select a background
- Select the access (who can view): private, show to everyone, everyone can post
- Select the details: show on dock, create sticky via email, RSS (I generally only select the “show on dock” option)
- A blank canvas will appear. Press the new content icon in the upper right corner to add a sticky note with text, a picture from the photo library or a snapshot from the camera.
- Add a sticky note (you can add a tag, change the font, add an emoticon, task or change the color using the icons at the bottom. You must press the **SAVE** button in the top right corner to add your sticky note to the board.

# LINOIT LESSON IDEA

## **Nebraska Language Arts Standards:**

*\*Note: This activity was designed for kindergarten or first grade, but could easily be modified for other grade levels.*

**LA 0.1.1 Students will learn and apply reading skills and strategies to comprehend text.**

LA 0.1.1.e Identify parts of a book (e.g. cover, page, title, author, illustrator)

### **Procedure:**

Students will use their iPads to label the parts of a book.

**Older Students Option:** Have students use a book and add sticky notes with pictures (they use the camera option with the new content icon) and text labels for the following: cover, page, title, author, illustrator.

**Younger Students Option:** Have students open a canvas that the teacher created and drag the sticky notes to the correct pictures and label the following: cover, page, title, author, illustrator.

### **Follow-up:**

Now that you have completed this activity, brain storm other ways that you might use Linoit in the curriculum. Here are a few: order of operations for math, online word wall for new vocabulary, brainstorming ideas for a writing project, putting a story together in the correct order.....

**“How could you adapt this activity to work with your students?”**
